Professional Summary

Computer Engineer seeking to specialize in cloud computing. My architectural knowledge of AWS, complemented by hands-on experience utilizing key services including EC2, IAM, S3, & Budgets.

EDUCATION

MBIT, CVM University

Bachelor's in Computer Engineering(BTECH)

Coursework: Cloud Computing, Networking, Database Management System

Expected: May 2027

Anand, India

EXPERIENCE

Smart India Hackathon

Team Lead

March 2024 - 2025

Remote

- Led a cross-functional team of students in two separate Smart India Hackathons, overseeing the full development lifecycle of technical solutions from initial concept to final working prototype.
- Coordinated project tasks, managed time constraints, and presented final prototypes to judging panels, demonstrating strong public speaking and technical communication skills.

Projects

Deployed my resume in an EC2 instance

April 2026

- Using **Git Bash**, I deployed my resume to an EC2 instance & using the Apache server to make it live on the internet.

Web-application Deployment on EC2 instance

(Ongoing)

- **Architected** and ongoing **deployment** of Intelli-ID, a web application using the AWS cloud platform, establishing global reach and durability.

SKILLS

Programming: C, Python, MySQL.

Cloud Platform: Amazon Web Services (AWS) Management Console.

Technical Skills: Networking, Cloud Computing, Bash Scripting.

Certificates

[AWS Academy \(Cloud Foundations\)](#)

March 2026

[SAP-Backend-Developer \(ABAP Cloud\)](#)

April 2026

Extra-Curricular

Enrolled in the SAP E2E (Educate to Employee) Program from 2025 to 2026.
